This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

WILLIAM C. POLAND, A. B., Principal,
MISS MARY A. HAKES, Preceptress.

THIS Institution is now in most successful operation, and is constantly adding to its facilities. It is the design of those who have it in charge that its students shall receive the best instructions, and shall be subjected to the best moral influences.

Especial attention is given by the Principal to those studies which are preparatory to a College course. The Classical course includes a careful and critical study of the Latin and Greek authors usually read for admission to our Colleges, and of the grammatical structure of the languages, together with an equally careful attention to collateral preparatory studies.

The English and Scientific course is full and thorough. The Sciences are illustrated by a valuable philosophical apparatus. Arrangements are now being completed to add immediately to the corps of teachers a competent and experienced English Master, who shall have the special charge of this department.

A room is in preparation and will soon be opened, conveniently and tastefully furnished, for a Young Ladies' department, to be under the immediate charge of the Preceptress.

Attention is given to the Modern Languages and Drawing.

TERMS, $12.00 A QUARTER. NO EXTRA CHARGES.

GRAND ARMY OF THE REPUBLIC.

An organization of the veteran soldiers and sailors of the late rebellion.

The objects of the G. A. R:

1. To preserve and strengthen those kind and fraternal feelings which have bound together the soldiers and sailors who united to suppress the late rebellion.

2. To make these feelings efficient in works of kindness and material aid to those who fought with us, by land or sea, for the preservation of the Union, and who now need our assistance for themselves or their families, by making provision where it is not already made.

For the protection and assistance of such as have been disabled either by wounds, sickness, old age or misfortune.

For the maintenance of the widows of such as have fallen, and the support, care and education of their children.

But this association does not make nominations for office or use its influence as a secret organization for partisan purposes.

Encampment Geo. H. Ward, Post 10, G. A. R., Dept. of Mass. Meeting each Thursday evening at Waldo Hall.

P. C., R. E. Blake; S. V. C., A. M. Parker; J. V. C., Augustus Stone; Post Adjt., A. D. Ward; Post Q. M., David Boyden; Post Surgeon, A. Wood, M. D.; Post Chaplain, E. S. Gould.

THE WORCESTER CO. LAW LIBRARY Association is composed of the members of the Bar of the County. The Library is one of the most extensive and valuable in New England, containing about 2400 volumes. The books may be consulted by the citizens of the County as well as by the Court and Bar. Joseph Mason, Geo. F. Hoar and T. L. Nelson, Directors. J. Mason, Secretary and Librarian. T. L. Nelson, Treasurer.

PUBLIC SCHOOLS.

There are one hundred and five public schools in Worcester, instructed and managed by one hundred and ten female and nine male teachers. The amount raised by taxation for the support of the public schools for 1868-9 is $——— besides ——— for school houses.

The schools in the centre are in six grades, the courses of study requiring two years in each grade except the High School which requires four years. Those in New Worcester, South Worcester, Quinsigamond and Northville are all graded, the first having four and the others two grades each.

Besides the graded schools in the centre, one has been established in Orange street for girls who cannot attend regularly, and another for truants and scholars of irregular habits, taking the place of the apprentices' school, but continuing through the year, and an Evening School for males, during the winter, in the same house, which have been quite useful in relieving the other schools of pupils who could not profitably attend them, and in providing the means of education for many whose age or employment during the day prevents their attending the other schools. There have also been established Evening Schools for females, under female teachers, in the Public Library building and the East Worcester School house.

There has been added to the public schools during the past year, a TRAINING SCHOOL. This school is designed exclusively for the professional instruction of teachers in the science and art of teaching. A discussion of methods of education, school organization and government, alternates with their practical application with classes of children. The school numbers at present, two hundred and twenty children, and seventeen teachers in training. Although too recently established to show results, it gives promise of success.

Still another school has been established at the City Farm, "designed to furnish to habitual truants, incipient vagabonds, juvenile criminals, the houseless and the vicious, a good school and a pleasant home, with comparative freedom from temptation, where they may be properly disciplined, and be taught habits of cleanliness, industry and cheerful submission to the authority of law; in short, to save them from becoming by-and-by a burden to society and a curse to themselves."

The range of studies in the public schools includes all branches, from the Alphabet to the higher English studies, and Latin, Greek and French languages; graduates from our High School having always been found well fitted for entering college, often in advanced classes.

The schools are under the general charge of a committee of twenty-four, (eight being elected each year, serving three years,) whose deliberations are presided over by the Mayor. Besides the supervision of the committee, the scholars have the benefit of the entire services of Mr. A. P. Marble, the superintendent.

The office of the superintendent is in the City Hall, where he may usually be found from 8 to 9 and 12 to 1 o'clock daily, when the schools are in session. The Secretary and Prudential committee of the Board, Mr. S. V. Stone, also has an office in the City Hall: office hours from 8 to 10 and 3 to 5 daily.

The school year commences on the second Monday in May, and is divided into four terms, comprising forty-one weeks, and commencing respectively on the second Monday in May, the last Monday in August, the Monday after Thanksgiving, and the last Monday in February.

The annual examination is made at the close of the Spring term, and promotions are made only at that time, except in special cases, to be voted by the Board.

The Vacations in all the schools, except the Suburban, are; eight weeks preceding the last Monday in August; Thanksgiving week, one week preceding the last Monday in February; and one week preceding the second Monday in May.

Instruction in Music is regularly given in the High, Grammar and Secondary Schools by Prof. I. N. Metcalf.

PRIVATE SCHOOLS, of various grades, abound in the city. Among the more prominent of these are Mr. Metcalf's "Highland Military Academy," Salisbury Street: Mr. H. R. Green's "Oread Institute," on a romantic eminence west from City Hall; and the Worcester Academy, corner Belmont and Summer sts., Wm. C. Poland, A. B. Principal; which are boarding schools of high grade, and receive many scholars from abroad. There are also many private schools for smaller scholars.

THE COLLEGE OF THE HOLY CROSS, situated on the beautiful eminence formerly known as Pakachoag hill, now as Mt. St. James, is designed exclusively for the education of young persons of the Catholic faith. It recently received a charter from the Legislature of Massachusetts, and enjoys equal rights and privileges with the other colleges of the State. The college edifice has recently been enlarged to about twice its former size. Rev. Robert W. Brady, S. J., is President: and he is assisted by a full board of Professors.

THE WORCESTER CO. FREE INSTITUTE OF INDUSTRIAL SCIENCE.—The spacious and elegant buildings erected for the use of this new educational enterprise having been finished, the school was commenced on Tuesday, Nov. 10, 1868. On the following day the edifice "properly called BOYNTON HALL, in honor of the founder of the Institute," was dedicated by appropriate public services. The history of the origin and early progress of the Institute has been given in previous numbers of the Directory, with lists of the principal contributors to its funds. The following description of the building, &c., is compiled from the Daily Spy of Nov. 12.

The grounds, when presented to the corporation, were in a state of natural wildness, mostly covered by a heavy growth of oak. A plan of the land was furnished the eminent landscape gardener, Calvert Vaux of New York, and the walks, carriage ways, and the location of the buildings were arranged in accordance with his direction. The plan of the main building was drawn by Messrs. Earle & Fuller, architects, of this city, and it has been erected under their direction by Messrs. Tower & Raymond, builders, of this city, the whole work being under the direct supervision of the building committee of the board of Trustees, Messrs. Lincoln, Morgan, Whitcomb and Hoar. The building fronts to the south, and is of rubble stone from Millstone hill, with trimmings of Uxbridge granite. Its style is pointed, and is simple and unpretending, in harmony with the rough material of which it is constructed. It is 150 feet in length, and 50 feet wide, with projections on each side of the west end, and a tower 20 feet square near the east end of the front, in which is the principal entrance. It is two stories in height, and by a peculiar arrangement of the attic a part of it is utilized. On the lower floor are located the laboratory and connecting rooms for the use of students, the president's room, lecture room, reading room, library, apparatus room, &c. On the second floor are the chemical lecture room, professor's private laboratory and connecting rooms, a room for the drawing school for the mechanical department, two lecture rooms, and professor's study rooms. In the third story are the chapel or exhibition hall, philosophical apparatus room, natural history cabinet, a lecture room, &c. The interior of the building is finished with chestnut throughout, in a plain and substantial manner. It is heated by steam, lighted with gas and is abundantly supplied with city water. In its construction and appointments it is thorough and complete, well adapted to its purposes, and creditable to those who have had charge of its erection. Its cost, complete, without the land, is from $60,000 to $70,000.

The Washburn machine shop is located just north of the main building. It is of brick, 102 feet 8 inches in length and 44 feet 8 inches wide, two stories in height, with a French roof. The building fronts the east, and in the center of the front has an octagonal tower, through which access is gained to the several stories, and in which is located the superintendent's office. The interior walls are to be whitened and the ceiling sheathed in wood, well adapting it for the purpose designed. The building was designed by E. Boyden & Son, architects, of this city. The brick work has been done by A. T. Burgess of this city, the wood work by Rodney Hunt of Orange, and the slating by H. A. Hathorn of this city. In the rear of this building is located the engine and boiler house and blacksmith shop, 65 by 25 feet in size. The building contains two boilers of 20 horse power each, one for heating the main building, and the other for an engine. These were constructed by Stewart & Dillon of this city, from plans by C. H. Morgan. The engine is twenty horse power, and was built by the Corliss Steam Engine Company of Providence, Mr. Geo. H. Corliss generously making a gift to the institute of one-half its cost. The machinery will be put in the building the coming winter, and the establishment will be ready for use as soon as it will be required.

The object of the Institute is to furnish a training school for young men of moderate means, or even without means, in which they can receive an education, not only in the branches usually taught in high schools and academies, but combining with these a practical education in the mechanical and scientific trades. Book-learning is combined with trade learning, and the student receives the benefit of an ordinary school, and at the same time a thorough knowledge in the scientific part of the trade or profession he proposes to follow, inculcated by the practical application from day to day, in the machine shop or the laboratory of the scientific facts obtained from books or lectures. The ultimate aim of the Institute is the elevation of the mechanic, by giving him thorough and complete scientific knowledge, on which he may base his future work. It is intended that any graduate shall be fitted to assume the responsibility of superintending any department of mechanical work to which he has turned his attention, and to understand not only its practical details, but also its scientific principles.

THE FACULTY.

At present, the faculty of the Institute is constituted as follows:

Charles O. Thompson, Principal and Professor of Chemistry.

George E. Gladwin, Professor of Drawing.

George I. Alden, Professor of Mechanical Engineering.

Miss Harriet Goodrich, Teacher of Elementary Mathematics.

The chairs of Modern Languages and Physics are unfilled as yet. The work is, hereafter, to be sub-divided, making Departments of Chemistry and Mining Engineering of the present Department of Chemistry, Departments of Free Hand and Perspective, and Mechanical and Isometric of the present Department of Drawing, and the Department of Mechanics will be separated into theoretical and applied.

COURSE OF STUDY.

In the Preparatory Class: Free Hand Drawing, 6 hours weekly; Geometrical and Perspective Drawing, 4 hours weekly; until the shop is in operation, this class will devote 12 hours weekly, instead of 10, to drawing; Arithmetic and Algebra, 6 hours weekly. The class will study Fractions, Percentage and Exchange, Ratio, Powers to the 3d degree, equidifferent, equitimultiple series, Factoring and Equations. Some knowledge of Arithmetic is presupposed, and these topics will be studied, not according to the order of any text-book, but according to the natural order of philosophic generalization. The class will also have daily drill in rapid arithmetical computation. Geometry, 4 hours weekly: Theorems, concerning lines, angles, plane surfaces, triangles, and the circle, with practical applications of the theorems in the solution of geometrical problems; the German language, 6 hours weekly; Physics, General Properties of Bodies, Equilibrium, Forces, and Pneumatics, 5 hours weekly. This class will have 11 hours in the shop weekly, and frequent exercises in declamation.

The Regular Junior Class will have in Algebra the topics requisite to a thorough knowledge of the advanced mathematics. In Geometry, demonstration of theorems, solution of problems, and the most important practical results of geometrical investigation. In Physics, the elementary topics essential to a successful study of Mechanics. In Trigonometry, solution of plane triangles, reduction of trigonometrical formular problems, elements of spherical trigonometry, surveying with chain and compass, plotting, calculation of areas, leveling, topographical mapping, use of theodolite, triangulation, methods of United States coast survey. It will be expected that this class will spend the month of July in field work, under the direction of the instructor. Reports of this work, accompanied by plans, will be required at the beginning of the fall session. They will study Inorganic Chemistry with laboratory practice; free hand Geometrical and perspective Drawing. They will also have exercises in declamation and English composition as often as practicable.

The Middle Class will have Analytical Geometry, Descriptive Geometry, Perspective and Mechanical Drawing, including Shadows, Intersection of Surfaces, and the different methods of mapping; the Calculus, with its more important practical applications; Chemistry, organic and inorganic; and the French language, with general exercises as in the other classes. During the last half of the middle year the class will be arranged in sections, according to the special course which each pupil will enter for the senior year, and the studies appropriate to each will be pursued.

The Senior Class will have general exercises in Mathematics, Physics, and language, as a class; but the principal work will be in the special courses. For instance, those boys who aim to be mechanics will work more hours in the shop than others, and will study machine drawing and construction. Those who aim at being draughtsmen and architects, will pay special attention in the shop to working in wood; to architectural drawing, modelling and designing. They will have opportunity to study models and photographs of standard classical works. Those who have a taste for Chemistry will learn its application to the arts, especially the manufacture of chemicals, dyeing, electro-magnetism, and metallurgy. Those who aim at mining engineering will be thoroughly fitted to enter the Freiberg Mining School. To this end they will press the study of the German language, blow-pipe analysis, and general laboratory pratice, in connection with the study of civil engineering. Those who have no taste for these branches of knowledge will have a short course of instruction in book keeping, political economy, and the laws of trade. The peculiar fitness of the course for those who intend to study the laws of patents must not be overlooked.

TRUSTEES.

Stephen Salisbury, President. David Whitcomb, Treasurer. D. Waldo Lincoln, Secretary. Emory Washburn, Ichabod Washburn, Alonzo Hill, George F. Hoar, H. K. Pervear, J. B. Blake, C. H. Morgan, Alpheus Harding, Seth Sweetser.

WORCESTER CO. MUSICAL CONVENTION. This Association holds an annual convention in Worcester in October, for improvement in Music in the higher departments, continuing five days, the time being occupied with instruction and practice, and public Concerts. The officers for 1869 are, President, Samuel E. Staples, Worcester. Vice Presidents, Edward Hamilton, William Sumner, B. D. Allen, and C. C. Stearns of Worcester, and Anson Rice, Northborough. Secretary, A. C. Munroe, Worcester; Assistant, Seth Richards, Worcester. Treasurer, William S. Denny, Worcester. Librarian, J. H. Samson, Westboro'. The next session will begin October 18th.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION, composed of persons "wishing to labor together for the spiritual and intellectual improvement of the young men of our city," has opened a reading room at No. 8 Mechanics Hall Building, where young men are always welcome, and proposes a course of lectures, religious meetings and other suitable means to accomplish its laudable objects. Prayer meetings are held at their rooms every noon, and Tuesday and Saturday evenings. Bible class Friday evenings. All are welcome. Henry M. Wheeler, President; C. H. Morgan, Vice-President; Anson F. Greene, Secretary; Charles G. Stowell, Treasurer; David P. Brown, Librarian. Directors—Charles H. Hutchins, Old South (Congregational): F. B. Knowles, Union (Con.); Daniel Kinsley, Central (Con.); E. W. Wellington, Salem Street (Con.); George C. Whitney, First Baptist; C. B. Knight, Pleasant Street Baptist; W. B. Gage, Main Street Baptist; C. W. Sears, Park Street Methodist; H. Bemis, Laurel Street Methodist; Charles H. Carpenter, Main Street Methodist; Rev. B. F. Chase, Webster Square Methodist; E. W. Barton, All Saint's (Episcopal); E. H. Hill, Mission Chapel.

STATE LUNATIC HOSPITAL. TRUSTEES, Hon. Samuel E. Sewall, Boston; Hon. Chas. Mattoon, Greenfield; Robert Hooper, M. D., Boston; Hon. Henry Chapin and Wm. Workman, M. D. RESIDENT OFFICERS—Merrick Bemis, M.D., Sup't; Joseph Draper, M. D., Ass't Physician; Caroline A. Bemis, Matron; Daniel W. Bemis, Steward and Treasurer.

AMERICAN ANTIQUARIAN SOCIETY.—Library in Antiquarian Hall, Lincoln Square, Worcester. President, Hon. Stephen Salisbury. Vice-Presidents, James Lenox, N. Y.; Hon. Benjamin F. Thompson, LL. D. Secretaries, Hon. Charles Sumner, Foreign; Hon. Emery Washburn, LL. D., Domestic; Rev. Alonzo Hill, D.D., Recording. Treasurer, Nathaniel Paine, Esq. Committee of Publication, Samuel F. Haven, Esq., Rev. E. E. Hale, Charles Deane, Esq. Librarian, Samuel F. Haven, Esq.

COUNCIL.—Hon. Isaac Davis, LL. D., N. B. Shurtleff, M. D., Charles Folsom, Esq., Samuel F. Haven, Esq., Rev. Edward E. Hale, Joseph Sargent, M. D., Charles Deane, Esq., Rev. Seth Sweetser, D. D., Hon. Richard Frothingham, Hon. Henry Chapin. Auditors, Hon. L. Davis, Hon. Ebenezer Torrey.

The Library of the Society contains about 40,000 bound volumes, besides many pamphlets, antiquities, works of art, &c.; and it has funds to the amount of about $60,000, the income of which is to be devoted to the pay of the Librarian, collecting historical and antiquarian materials, publishing, binding, &c., &c.

LIBRARY OF THE WORCESTER DISTRICT MEDICAL SOCIETY.—This Library was commenced in 1788, by the gift of "fifty pounds value in books" by Dr. Elijah Dix of Worcester. It has since been largely increased by donations from Physicians, and by the income of $6000 bequeathed for the purpose by Hon. Daniel Waldo. It contains over 4000 volumes, chiefly medical and surgical works, almost exclusively of the Allopathic school, which may be consulted by citizens at the rooms only, in exchange for which privilege the city furnishes the free use of the room and the services of the Librarian.

The officers of the Medical Society are:

President—Dr. Rufus Woodward of Worcester.

Vice President—Dr. Nelson Carpenter of Warren.

Secretary and Librarian—Dr. G. E. Francis of Worcester.

Treasurer—Dr. T. H. Gage of Worcester.

Censors—Drs. Henry Clarke, B. H. Tripp, J. G. Park, E. Warren and G. E. Francis.

Councillors—Drs. R. Woodward, M. D. Southwick, O. Martin, W. H. Lincoln, F. D. Brown, B. H. Tripp, Nelson Carpenter and R. R. Clarke.

MOZART AND BEETHOVEN CHORAL UNION. This Association is intended to unite the entire choral force of the city in one body, for the practice of sacred music, and the promotion of good fellowship among its votaries. Weekly rehearsals are held on Monday evenings, at the Sons of Temperance Hall, from October to April, and occasionally Concerts are given. The officers are A. C. Munroe, President; Wm. Sumner, Vice President; Solon Wilder, Musical Conductor; Edward L. Spaulding, Secretary; G. W. Gould, Treasurer; G. M. Pierce, Librarian; Seth Richards, Samuel Porter, Samuel Brown, G. W. Elkins, Chas. W. Gilbert, Trustees.

WORCESTER AGRICULTURAL SOCIETY.—S. H. Howe of Bolton, President; Charles M. Miles of Worcester, Secretary and Treasurer. The Society has nearly twenty-five acres of land on Highland street, west of the Court House, for the accommodation of its annual exhibitions, on which a spacious hall has been erected, and a half mile trotting park laid out. Notwithstanding the great multiplication of local agricultural societies and exhibitions, (or perhaps as a consequence of such increase,) the annual exhibitions of this time-honored Society have of late been greatly improved, both in the variety and the excellence of the contributions. The attendance is also large on the days of the agricultural exhibition, as well as on the racing days.

WORCESTER CO. MECHANICS ASSOCIATION. This association provides a course of Lectures each winter, the use of a choice library of more than 1500 volumes, open to members each Saturday afternoon and evening, and of a very pleasant, nicely fitted-up and well supplied reading room open from 9 A. M. till 9 1-2 P. M. daily except Sundays, at No. 4 Mechanics Hall building, besides other valuable privileges, to its members. A school of Mechanical Drawing is open to the apprentices of members during the winter evenings. Philip L. Moen, President; Alzirus Brown, Vice President; Edwin A. Wood, Clerk and Treasurer; Jaalam Gates, Janitor.

Mechanics Hall, erected by this Association, is one of the most spacious and beautiful halls in New England, and will furnish seats for about 2000 persons. There are eight entrances to the hall, and six stair-cases communicating with the floor below. There is in the hall one of the largest and most effective Organs in the country, which adds greatly to the attraction of the place for public gatherings, concerts, &c.

Washburn Hall, in the same building, is a very accessible and convenient hall for an audience of five or six hundred.

PUBLIC LIBRARY BUILDING. This fine edifice, situated on the south side of Elm street, a few rods from Main, was erected in 1861-2, for the safe keeping and distribution of the Free Public Library of the city; and affords room for that purpose, besides accommodating the Worcester District Medical Library, and a Grammar School for girls.

The Free Public Library is in three departments. 1. The Circulating Department contains over 6700 volumes, which may be taken out freely for reading by any of our citizens over 15 years of age. This has been largely used, the average number of takers being nearly 200 daily.

2. The Consulting Department, or Green Library. This department contains about 13,000 volumes, many of them very rare and valuable, mostly given to the city by Dr. John Green, with the condition that a suitable building should be provided, and that they should not be taken from the library room, but freely read there at all times when the rooms are open. The Green Library is composed of books purchased by the venerable donor during several years for the specific purpose to which they are appropriated, at a great expense, and embrace a very wide range of topics of interest to all classes of the community. A catalogue of this Library in manuscript has been prepared.

3. A READING ROOM, containing files of 56 American and 44 Foreign newspapers and magazines. This is supported by the income of a fund of about eleven thousand dollars, raised by subscription for the purpose.

The Library rooms are open from 9 A. M. to 1 P. M. and from 2 to 5 and 6 1-2 to 8 P. M. The Reading Room till 9 1-2 P. M. Z. Baker, Librarian; Mrs. Z. Baker, and Miss E. S. Eddy, Assistants.

WORCESTER LYCEUM AND NATURAL HISTORY ASSOCIATION. This is a popular association, and its charter provides that any inhabitant of Worcester above the age of fourteen years may have a right to share its privileges on such terms as its by-laws may provide;—that said corporation may hold real estate and personal property to an amount not exceeding one hundred thousand dollars; that a course of popular lectures shall be provided each year, the lecture committee to be chosen by those persons who held season tickets for the last preceding course, together with the members of the association. At least one half of the profits of the annual course of lectures are to be added to the invested lecture fund, until the same shall amount to ten thousand dollars. Thereafter, such profits may be disposed of at the pleasure of the association.

The Association has removed its Cabinet and Library to the spacious rooms on the third floor of the Bank Block, Foster st., where they are open to the public on Wednesday afternoons, and to members and their friends daily; and where the regular meetings are held on the first Tuesday evening of each month. President—Rufus Woodward. Vice Presidents—James Bushee, and David Weston. Secretary—Charles E. Phelps. Corresponding Secretary—Stephen Salisbury, Jr. Treasurer—Samuel S. Green. Superintendent of Cabinet—James G. Arnold.

CEMETERIES.

The Hope Cemetery, New Worcester, is owned by the city. The beautiful location and fine natural advantages of this spot, improved as they have been by the Commissioners in charge, render it an attractive place of resort for citizens and strangers. Persons who wish, may secure lots by purchase, at from five to forty dollars, according to location, &c., by application to the City Treasurer; and provision is made for free burials, if families are unable to purchase lots.

The Rural Cemetery, on Grove street is the property of a Corporation composed of the owners of the lots, which includes a large portion of our older citizens. Constant improvements are going forward there, showing the good taste of those having them in charge. It is managed by a Board of Trustees; consisting of D. Waldo Lincoln, President; J. Henry Hill, Clerk; Henry W. Miller, T. W. Wellington, C. B. Whiting, George W. Richardson, George A. Bates. John C. Ripley is Treasurer.

PROVIDENCE AND WORCESTER. Passenger and freight trains pass over the road daily from Green Street. A train from Uxbridge arrives before 7 A. M., and returns at 7 P. M.

WORCESTER AND NASHUA. Cars pass over the road daily, three times each way, connecting at Groton Junction with trains for Lowell, Fitchburg, Boston and Townsend. Office in Worcester Bank Block, Foster St. F. H. Kinnicutt, President; Charles S. Turner, Superintendent; T. W. Hammond, Treasurer.

FITCHBURG AND WORCESTER. Cars run to and from Worcester in connection with all the trains on the Worcester and Nashua railroad. H. A. Blood, Superintendent.

STAGES AND OMNIBUSES.

From Worcester to Paxton, West Rutland, Coldbrook, Smithville, Barre Plains, Barre, Petersham, Athol, Dana, North Dana, Millington, North New Salem and Orange, leave the Bay State House, daily, at 10 A. M., and 4 P. M. Arrive in Worcester at 9.30 A. M. and 3.45 P. M.

To Holden, Rutland, and Hubbardston, from General Stage office, at 4 P. M. Arrive at 9-30 A. M.

To Shrewsbury, Northboro', and Marlboro', from Waldo House at 3-45 P. M. Arrive at 9-30 A. M.

To Paxton and Oakham, from 163 Main Street, at 4 P. M. Arrives at 9 A. M.

To New England Village and Grafton, from 207 Main St., at 10-15 A. M., and 4-30 P. M. Arrives at 9 and 2-15.

To Cherry Valley, Leicester and Spencer, from 207 Main St., at 4-30 P. M. Arrives at 9 A. M.

To Cherry Valley and Leicester, from 207 Main Street, at 10-30 A. M., and 4-30 P. M. Also, at 9 P. M., Wednesdays and Saturdays. Arrives at 9, 2-30 and 7.

New Worcester Omnibus, leaves New Worcester at 6-30, 8-15 and 10-30 A. M., 1-30, 3-30 and 6-45 P. M. Returning, leaves Mrs. Dorman's, 207 Main Street, at 7, 9-30, 10-30, and 12 A. M., 2-30, 4-30 and 9 P. M.

South Worcester Omnibus, leaves foot of College Street at 6-15 and 8.30 A. M., and 2, 5-30 and 6-45 P. M. Returning, leave Bay State House at 6-45 and 10-30 A. M., and 4, 6-15 and 9 P. M. Sundays leave South Worcester at 10 A. M., and 2 and 6-30 P. M. Returning, leave after church services on each trip.

EXPRESS BUSINESS is done on all the railroads: also, by the stage drivers on all the routes out of Worcester, and by Express wagons to most of the neighboring towns.

A FREE PUBLIC MARKET has been established in Worcester, consisting of the sidewalks and adjacent street on each side of the City Hall, and on the north side it has been protected by a substantial roof.

Here any person having meats, fish, vegetables, fruit, &c., for sale, may offer them each forenoon, and through the day on Saturday. The design is to give opportunity for the producers to meet the consumers, and supply their wants without the intervention of middle-men, who have heretofore had the credit of absorbing too much of the prices paid for provisions without a suitable equivalent. The experiment so far works well, and the market will doubtless in time grow into a very useful and creditable institution.

KETCHUM'S

PATENT

MINCING KNIFE,

MANUFACTURED BY

KETCHUM & LOUD,

WINCHENDON, MASS.

We offer this knife to the public, having the utmost confidence that it is superior to any other knife made in this country. We claim that it is the only knife that takes on the drawing stroke by its own action, and also that it will cut raw or boiled meat equally well. All we ask of any one who doubts, is to try it. We ask no one to buy unless our claim proves good.

It should be used in a tray or bowl of sufficient size to allow the blades to spread when the knife is forced down upon its bottom. Care should be taken to oil the joints and pins which the springs play upon.

The thumb-screw passing through the shank will give more or less force as the nut is turned off or on ; giving it the power to cut the toughest raw meat, or the softest vegetables.

Both blades should be sharpened with a fine Stone or Hone, before using. The knife, after cleaning, should be hung up by the hole in the center of the blades when open.

In cutting raw hard meat, the nut should be turned on until the springs are brought down upon the pin in the shank.

This Knife was awarded a Diploma at the New England States Fair at New Haven, Ct., Sept. 1. Also, at the Vt. State Fair at Burlington, Sept. 8, 1868. Also, at the New Hampshire State Fair held at Manchester, Sept. 22, 1868, and at the Maine State Fair held at Portland, Oct. 6th, 1868.

All orders addressed to the manufacturers will receive their personal attention.

Agents wanted in every Town in the Country.

Also, Town and County rights for Sale.

The Central Mutual Fire Insurance Company insures Dwellings, Churches, School Houses and Personal Property, generally.

It proposes to insure all kinds of property not considered "Extra Hazardous," upon the Mutual plan.

While Massachusetts liberally protects her property from loss, she should be as just to her own interests as she is to Foreign Corporations, whose accumulated wealth is largely her Capital. We would ask of her that which is wisely suggested by her Insurance Commissioner, viz;

Home instead of Foreign Protection.

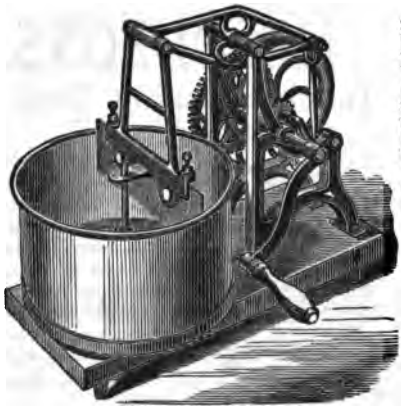
Incorporated May 18, 1868, for the manufacture and sale of

Starret's Patent

Meat and Vegetable Choppers.



These Choppers are the neatest and best machines for chopping Meat, Fruit and Vegetables ever offered to the public, as hundreds who have used them are unanimous in declaring. With one, a child can accomplish more in one hour than any person can 'in the ordinary way' all day. They are made on scientific principles, and do not grind, but CUT the material to be chopped in the most perfect manner, and as fine as desired. As they occupy no more room than a chopping tray, and are as easily cleaned, and will wear a life-time, they are just the thing needed for all chopping purposes.

Four sizes are made, adapted to families, hotels and boarding houses, butchers and bakers.

Every machine WARRANTED to delight the purchaser, and give perfect satisfaction.

HOWE & STEVENS' FAMILY DYE-COLORS.

LIST OF COLORS:

Black, Black for Silk, Dark Blue, Light Blue, French Blue, Dark Brown, Claret Brown, Light Brown, Snuff Brown, Cherry, Crimson, Dark Drab, Fawn Drab, Light Fawn Drab. Light Drab, Dark Green, Light Green, Magenta, Maize, Maroon, Orange, Pink, Purple, Royal Purple, Salmon, Scarlet, Slate, Solferino, Violet, Yellow, Cuir or Leather.

The above list of Colors are now made by us in both forms,—all as Dry Dyes in powder form, and all as Liquid Dyes in bottles,—that customers may have their choice. We advise the use of the Blacks, Browns and Drabs in the powder form; and Magenta, Solferino and Green in the liquid form. With the exception of Magenta and Solferino, the liquids will not color one third the weight of goods that the powder colors will, and are not so durable; but for ribbons and small articles, the liquids are best, as they require but ten to twenty minutes to dye. These dyes have now become a staple article of trade: having been in the market now seven years, their reputation is fully established for economy and usefulness, and are becoming more generally used every day.

SILVERINE,

For Silver-Plating articles of Brass, Copper, German Silver, Bronze, &c., and for Cleaning and Polishing Silver and Silver-Plated Ware.

It is perhaps needless to say that the Silverine, as its name implies, is a preparation of PURE SILVER, and contains no mercury, acid, or other ingredients, nor any property in the slightest degree injurious to metals, or the hands.

Applied to Silver-plated Table Ware, Fruit Dishes, Trays, Castors, Stair Rods, Harness Trimmings, Military Equipments, Door Knobs and Plates, Metallic Window and Show Case Frames, &c., whose plating is worn off, it gives them all the beauty of new ware, which they will retain if the Silverine is applied as often as such articles are ordinarily cleaned.

Applied to Copper, Brass or Bronze articles, it will keep them beautifully silvered, with one quarter the trouble required to keep them clean by scouring, etc.

It will also be found to be the best and most economical silver cleaner ever used, producing all the brilliancy of unalloyed silver.

HOWE'S GOVERNMENT WRITING AND COPYING FLUID.

The Color, at first a deep green, afterwards changes to an intense black. Flows easily and will keep in any climate, and preserve its fluidity.

BREECH-LOADING
RIFLE.

WESSON'S Improved Breech-Loading Rifles have now been in use and before the public a sufficient length of time to become thoroughly tested as to capacity—their rapidity in loading and firing, simplicity, *great force and accuracy* in shooting.

For these qualities, together with the superior finish, and exceedingly low price at which they are sold, the Rifles justly merit the commendation so generously awarded by army officers, and many others well versed in rifle shooting, that "It is the best Breech-Loading Rifle yet constructed, while its accuracy is pronounced equal to the celebrated Kentucky Rifle."

Patent Paper Back Cards

For Drying Machines and Heavy Work.

MANUFACTURED ONLY BY

SARGENT CARD CLOTHING CO.

WORCESTER, MASS.

Patented Oct. 20, 1868.

Manufacturers using Drying Machines are well aware of the constant expense and annoyance which result from the effects of heat upon the leather back cards used for holding the Cloth on such Machinery. This difficulty is entirely obviated by our patent Paper Back Cards, and we warrant the same to endure as long as the rims of the machine to which they are attached.

The flattering demand thus far for this improved card, justifies us in keeping all the varieties in stock. Orders filled promptly.

JOHN PRESTON,

MANUFACTURER OF

Premium Cocoa and Broma, Vanilla, Sweet French and American

CHOCOLATES.

Office 162 STATE STREET, BOSTON.

PRESTON'S BREAKFAST COCOA.

The very agreeable character of this preparation has rendered it a general favorite wherever it has been introduced. Invigorating and sustaining in its properties, with a refined and grateful flavor developed by the special mode of preparation, after many years of experiment by a process peculiarly his own, unknown to any other manufacturer and secured by patent.

THIS COCOA

Is now being used as their habitual morning beverage

by many families who have never used Cocoa before and is fast winning favor with the public

Medical men recommend Cocoa to invalids and convalescents as preferable to tea or coffee; for while soothing to the nervous system, it is restorative, invigorating and sustaining in its nature, and therefore well adapted to those in feeble health, or of sedentary habits, and especially so to mothers, both before and during the time of nursing, improving the quality and increasing the quantity of milk, and by its nutritive properties, sustaining the strength of both mother and child.

The superior quality of this article has induced others to attempt to imitate it, and the public are cautioned to beware of any other than the genuine

Preston's Breakfast Cocoa,

As there can be no other like it, the trade mark of which is secured by Copyright.

It is easily prepared for the table, and should be kept on hand by every family for ready use. It is neatly put up in pound and half-pound packages, with directions for use on each package, and sold by the grocers generally.
